

**Youthprise Job Posting: Nutrition Program Meal Access Intern**

Youthprise is a philanthropic organization that works to increase equity with and for Minnesota's Indigenous, low-income, and racially diverse youth. Youthprise does this by directly supporting youth and youth-serving organizations through mobilizing and investing resources, advancing knowledge, and advocating for change. Youthprise's three priority areas are: learning and leadership, economic opportunity, and health and safety.

**Job Summary**

The Nutrition Program Meal Access Intern will expand, market and monitor Nutrition Sites for the Summer Food Service Program (SFSP) located in or near the Metro. This position will be mostly in person monitoring visits and meetings with the option of some virtual meetings. Safety equipment can be provided for in-person visits. This position will provide regular oversight for food delivery and meal distribution to multiple sites in compliance with regulations of the USDA, Summer Food Service Program, and State of Minnesota Department of Education. The Meal Access Intern will learn multiple levels of community nutrition and food access that affect local Minnesota communities and their youth. Interns will also work with local vendors and community partners regularly to administer summer meals, helping the team to brainstorm and adjust working in the child nutrition and hunger realm.

**Number of positions available:** 2

**Job Duration and Schedule:** Part-time, temporary role; average 15 hours/week after training. Training in May; work June-August 2022. Flexible scheduling in normal business hours, with some early evening hours required to conduct site training and checks. Primarily in person work with some virtual meetings. Safety equipment will be provided if requested.

**Compensation:** This is a non-exempt role with a pay range of \$16-\$18/hour, depending on qualifications.

**Education, Experience & Skills:** High school diploma required (may be graduating May/June 2022); special interest in candidates pursuing undergraduate degree in Nutrition, Management, Health, Public Health, or related Community Service majors. One to three years of life or professional experience in youth development, family services, nutrition, food services, or related work. Some knowledge of federal and state food program requirements. Proficiency in MS Office product and database management. Passion and demonstrated ability to work with diverse cultural communities.
